HUMAN RIGHTS VIOLATION COMPLAINTS

12-17-2015
Complaint Form
*Due to a shortage in complaint forms:
Miss. Boyo Elizabeth Cary, A.A.B.A., M.A.
I went to the Gyn clinic, after an appointment, that I had there, in the morning. I complained about the fact, that I have not been hired in the U.S. since 2008, because I refuse to prostitute. I told the director of the Gyn clinic, that I am working towards my doctoral degree, and, I am overqualified for work in the U.S., however - I will never prostitute.
I presented the director of Gyn, here at N.E.F.S.H., with a beautiful beaded necklace, that I made, and a business card - professional reasons only. I suggested that the Gyn clinic, here at N.E.F.S.H., pay me a small sum, for the high quality beaded jewelry I make, because, the Gyn clinic, gives a free beaded item, for a visit.
The director of the Gyn clinic, laughed at me, for complaining about the alarming spread of S.T.D.'s, including: H.I.V./A.I.D.S. - at N.E.F.S.H., where patients are raped, then released back to a community. She also pretended like the jewelry was donated!

"The amount of violations of human rights in a country is always an inverse function of the amount of complaints about human rights violations heard from there. The greater the number of complaints being aired, the better protected are human rights in that country."
- Daniel Patrick Moynihan
